Security Audits

Experts in Security Audits and threat Assessments

Your opportunity... to allow LBG to audit and review your sites and allow us to provide a fully comprehensive report outlining both your strengths, weaknesses and threats ranging from political, geographical and technical.

Your greatest risk... is to leave your premises unchecked and un-audited.

APPROVAL

LBG Security Audit experience

LBG works closely with multi-nationals to assess the security of a company's facility through our formalised audit process that identifies vulnerabilities and creates an action plan.

LBG auditors come from a deep technical and experienced background with one of our auditors being C-TPAT trained.

What LBG can do for you

LBG ensures your building is secure from outside attacks with physical penetration testing and will raise red flags in terms of security violations from many different areas such as physical security, access control, perimeter security, intrusion detection, information systems, human resources and policy implementation.

LBG delivers

- Security audits
- Threat assessments
- C-TPAT audits
- Advice and training on physical-logical security requirements
- Consultancy on CCTV implementation and design
- Daily security advisories for your staff

Reasons why.....

Correcting issues will protect your assets by deterring security threats such as those posed by terrorists and criminals.

Every security enhancement you make based on the audit will make the company more secure and enhance customer and employee confidence.

The audit will allow the chance to train and improve your current security culture and enhance employees understanding of security processes.
